

Press Release

The Alternative View

Conference & Workshops

Totnes Civic Hall – 25/26/27th April 2008

Codex Alimentarius is not a phrase you are likely to hear or read in the mainstream media. The phrase simply means '**Food Code**' or '**Food Law**', yet the 27 committees of the International Codex Alimentarius Commission are advancing global legislation which will effectively eradicate Organic Farming, in favour of irradiated GM products; and will destroy the Complementary & Alternative Health Community by making it illegal to prescribe, *or even recommend*, nutritional supplements, vitamins, herbs or other natural health remedies.

This pernicious attack on our Health Freedoms is being driven by the corporatocracy of Big Farmer & Big Pharma ... yet few people are aware of the Codex steam train coming down the tracks at an alarming rate!

Codex Alimentarius is the most advanced example of global corporate driven Regulation & Directive, which will ultimately remove the last remaining vestiges of democracy. The recent failure to provide the British people with the promised opportunity to participate in a referendum on the EU Treaty is yet a further example of the complete disregard for the will of the people.

The only 2008 event in the UK, which has been convened specifically to raise public awareness of the UN/EU Codex threat, **The Alternative View Conference** brings together a group of speakers who each have a unique perspective on the unfolding global drama.

The Alternative View will take place in Totnes, Devon, described as the alternative Capital of the world. Confirmed Speakers include:

David Icke – Author, Researcher & Political Analyst
Talk: **Joining the Global Dots**

Phillip Day - Author & Chief Executive of Credence Health Products.
Talk: '**The New European Order & Natural Health**'.
